*Licking/Knox Goodwill*

Timothy J. Young, CEO/President

Thank you for taking a moment to Discover Goodwill. Our new publication will provide you with an exclusive inside view of everything Licking/Knox Goodwill has to offer our community.

In addition to nine retail stores, a used car lot, and an online auction site, Licking/Knox Goodwill offers full service janitorial contract services, career training services for youth and adults, and an unarmed security guard detail. Services are offered to the community at reasonable rates.

All of our divisions provide opportunities for individuals with disabilities and other barriers to employment. Licking/Knox Goodwill currently employs over 300 individuals across Licking, Knox, and Franklin counties.

The Discover Goodwill publication will be issued bi-annually and available in print and online. If you wish to be added to our mailing list, visit our website and sign up to receive email updates or you can contact [info@goodwillnewark.com](mailto:info@goodwillnewark.com) to be added to our paper mailing list.

On behalf of the employees, thank you to all the communities we serve for their constant support in fulfilling the dreams of many individuals.

### **Our Mission:**

Licking/Knox Goodwill Industries, Inc. provides training, employment, and support services to individuals with disabilities and other barriers to employment.

# Meet Goodwill's Trustees

Licking/Knox Goodwill Industries, Inc. is proud to recognize Robert H. McGaughy as our newest Board Trustee. He was inducted to the board with a term starting April 1, 2013. McGaughy will serve an initial three-year term with the organization. He sits on Licking/Knox Goodwill's Personnel and Operations Committee.

Bob McGaughy retired from Licking Memorial Health Systems effective January 1, 2000 where he was serving as Vice President for Human Resources and Development. Bob left The Ohio State University at Newark where he had served as Assistant Director and Business Officer for nearly 11 years to become Personnel Director at Licking Memorial Hospital on January 1, 1977. During the last five years of service at OSU Newark, Bob served concurrently as chief fiscal officer for Central Ohio Technical College. Prior to employment at OSU Newark, Bob served as the founding Director for the Licking County LEADS and Head Start Programs. Bob also taught at Licking Valley High School and was principal at Madison Elementary School prior to serving LEADS and Head Start.

McGaughy is a graduate of Newark High School. He also graduated from The Ohio State University with a degree in Business Administration and completed

additional course work at OSU in Education.

McGaughy is currently a member of numerous organizations. Some of which include: Licking Memorial Hospital Development Council; Development Council Executive Committee, The Works Development Council Executive Committee, Newark Rotary Club; Newark Rotary Club Foundation; Rotary District 6690 Council; Rotary District 6690 Past District Governor's Council; Rotary District 6690 Nominating, Club Extension, Legislation and Ambassadorial Scholarship Committees; Licking County Foundation Scholarship Review Committee. Rotary Paul Harris Fellow; Cornerstone Club; William Schaffner Society at Licking Memorial Health Systems; Rotary Benefactor.

McGaughy has previously served numerous organizations. Some of which include: Past governor, Rotary District 6690; Board of Directors, Licking

Memorial Hospital; Board of Trustees, The Ohio State University Newark; Board of Directors, Newark Granville Symphony Orchestra; Campus View Village Corporation Board of Trustees; Licking County Leave A Legacy; LEADS Board of Trustees; Board of Directors, Par Excellence School; Board of Directors, Licking County Chapter of the American Red Cross; Board of Directors, Licking County Family Services Association; United Way of Licking County, Licking Muskingum Community Corrections Center, Salvation Army, Newark Campus Development Fund, Mental Health America of Licking County, Leadership Tomorrow, Licking County Chamber of Commerce, City of Newark, Central Ohio Technical College, JC Penny Golden Rule Awards, Licking County Women of Achievement, Licking County Chapter of A Special Wish, Newark Public Schools, Licking Valley High School, Call to College, Licking County Operation Feed and the Ohio Society of Hospital Human Resource Administrators.

# Summer Youth Program Beautifies Local Parks

*Contributed by: Sara Comisford,  
Summer Youth Program Coordinator*

The afternoon of June 19, 2013 wasn't like any other day for Charlie Stumbo. For weeks Charlie picked up debris, pulled weeds, planted trees, and painted. He had worked outside in the sweltering 90 degree heat, suffered through blisters, avoided thistles and bees. He even had to endure math. No - this wasn't a punishment, it was something he had volunteered to do, it was something he had applied do, it was something he very much wanted to do. Charlie spent six weeks in the Licking/Knox Goodwill Summer Youth Program and June 19, 2013 marked the end of his journey and a pizza party!

Charlie wasn't alone in his summertime journey. He was joined by other youth working to improve their employment skills. The 2013 Summer Youth Program for Licking/Knox Goodwill Career Services was an enriching program for both participants and staff. Licking/Knox Goodwill was able to partner

with Newark's Parks and Recreation District to create several job sites. Chuck Jackson, Parks and Recreation Project Coordinator, was excited to have some help with the maintenance and Goodwill was excited to have a new site to train on outdoor maintenance skills. The youth who enrolled in the Summer Youth Program committed to six weeks of on-the-job training with daily job skills sessions for the duration of the program.

This year's participants jumped into their task of beautifying three local parks, Horn's Hill, T.J. Evans, and George Dell as well as the downtown Newark Square. Each day the youth were scheduled to clean-up at one location during a three-hour shift. Goodwill's youth were dedicated and able to complete their tasks in record time, by completing two locations in just two hours! The George Dell Park became a pet project for

Jeremiah Malone and Charlie Stumbo

one of our groups. This small park on the corner of Granville Street and Central Avenue was a victim of neglect and vandalism. Charlie, along with Jeremiah Malone, Bethany Pettibone, and Damian Stiffler took ownership of the park and made it their personal pursuit to make the park safe for children to play. Charlie was willing to do any task assigned to him. He showed enthusiasm when he was given a pair of loppers and

asked to clear a seven foot tall chain link fence of vines and weeds. Charlie was assisted by the other youth who worked with a smaller pair of clippers and shovels. "I really like doing stuff like this!" Charlie exclaimed. He even expressed an interest in making a career in landscaping, "I want to do landscaping, but not like lawn mowing, I want to clean things up and make them look better." Charlie said.

Thanks to the supplies provided by

the Newark Parks and Recreation Department, the youth had the tools needed to remove graffiti from the play equipment, cut away wildly

**"I want to clean things up and make them look better."**

overgrown brush, trim trees, and paint the worn out sign. With every passing day, the youth would ask to

return to George Dell Park to continue to improve the forgotten little park. Charlie became the group motivator and was involved in planning to ensure tasks were completed. Additionally, an array of tasks were lined up which included revitalizing the landscaping at the Goodwill Administrative Campus on South 5th Street in downtown Newark. Charlie, Jeremiah, Bethany, and Damian learned how to plant trees and flower beds and proper watering. Surprisingly,

To whom it may concern,

As the special Events & Projects Coordinator for the City of Newark Cemetery/ Parks Department, I would like to take this opportunity to thank everyone that was involved in our parks cleanup program this summer. It has been a complete joy to watch these young men and women as they worked to make our parks a better place for all to enjoy. Their hard work and effort is greatly appreciated, and they truly made a difference while they were participating in this program.

A special thanks also needs to be given to Stacey Triplett and Sara Comisford for their willingness to coordinate the program with our department, and for the way they interacted with the youths involved. It is very apparent that they love working with those with special needs, and everyone at Licking/Knox Goodwill Industries can be very proud of these two ladies.

In closing, I would like to again thank all involved, and would most certainly be willing to partner with Goodwill again anytime that we would have the opportunity. It is my belief that we can make a difference in people's lives, and I am proud to know that everyone at Licking/Knox Goodwill Industries feels the same way.

Yours truly,

**Chuck Jackson**

**Back Row:** Charlie Stumbo (Pataskala), Kimberly McClain (Newark), Sara Comisford - Program Coordinator, Zachary Hunter (Heath), Damian Stiffler (Newark). **Front Row:** Ashlie McFarland (Pataskala), Stacey Triplett - Program Coordinator, William Young (Newark), Bethany Pettibone (Newark), Jeremiah Malone (Pataskala).

watering the various plants became a welcome task during the hot weather. The youth never seemed to mind when they would “accidentally” get wet. While revitalizing the landscape, the group learned to work as a team and was thrilled to see progress in all the areas they touched.

During the six week program, the youth worked in all types of weather. There was no such thing as a “rain day.” Even though some of the youth may have secretly wanted a day off, rainy days led the youth to the Goodwill Unlimited Store in Heath, Ohio. All the youth in Goodwill’s Summer Youth Program learned to sort donated clothing and prepare donations to be placed on the sales floor. Rainy days also gave the

opportunity for job skills training. The youth spent four hours a week learning about appropriate work behaviors, money management, work ethic, employer expectations, appropriate conversation/language, and time management. Their favorite activity was playing Monopoly. They utilized their math and reading skills, while perfecting the art of being a good sport. Charlie liked being a leader during the multi-day Monopoly games. He preferred to act as the banker and was very helpful with teaching his classmates how to count money.

Overall, the participants enrolled in the Summer Youth Program had an excellent work ethic. They came to work every day, maintained a

positive attitude, and were willing to tackle whatever task was laid before them. On Charlie’s last day, he was introduced to another group of youth who tackled the morning shift at the parks and retail stores. A pizza party was the perfect treat!

The Licking/Knox Goodwill Summer Youth Program is offered every summer in conjunction with the Opportunities for Ohioans with Disabilities, also known as the Bureau of Vocational Rehabilitation (BVR). The program lasts for six consecutive weeks with worksites in Licking and Knox counties. For referral information, please contact Licking/Knox Goodwill Career Services at (740) 345-9861 or look online at [www.goodwillnewark.com](http://www.goodwillnewark.com).

# KICKstart

A Program Offered by  
Licking/Knox Goodwill Industries, Inc.

The Licking/Knox Goodwill Strategic Plan identified the gap in housing, employment, and overall support services for young adults transitioning from foster care. As a result, in 2013, the KICKstart program officially launched.

This program provides support for young adults entering the world for the first time on their own, such as: securing housing, job skills, employment assistance, setting up a bank account, applying for a driver's license, etc.

The name KICKstart was chosen to represent the idea of a positive launch for these young adults as they transition into the next phase of their lives.

## Now Accepting Referrals

# Home is Where the Heart Is

*Contributed by:  
Dave Spencer, Director of Facilities*

What does it mean to have a place to call home? It means a sense of security, self assurance, stability, pride, and so much more. A place to call home is the foundation of a balanced and stable life for individuals and families. When that life balance is broken by homelessness, the emotional, physical, and financial effects on individuals and families become devastating.

Home owned by Licking/Knox Goodwill to provide homeless housing.

According to the Substance Abuse and Mental Health Services Administration, in the United States, as many as 3.5 million people experience homelessness in a given year (approximately one percent of the entire U.S. population), and about 842,000 people in any given

age, gender, ethnicity, or income. As of 2012, the National Alliance to End Homelessness reported that the highest odds of homelessness are one in 11 for a young adult who has aged out of foster care.

How does each community attack the

**“...3.5 million people experience homelessness in a given year...”**

problem of homelessness? Licking/Knox Goodwill believes this can and must be accomplished one person and one family at a time. Licking/Knox Goodwill has invested in properties, right in our community, to provide

opportunities to those in need of a place to call home. Our organization understands that partnering resources in our community makes a very effective way to impact homelessness one person and family at a time. Licking/Knox Goodwill works through referral and partnership with the Licking County Coalition for Housing, and extended partnership with the Chalmers P. Wylie VA Ambulatory Care Center.

Locally, Licking/Knox Goodwill provides a full single family home that is made available to American veterans through our partnerships. Goodwill also rents three efficiency apartments on the upper level of

the building at 47 South 5th Street in Newark. This building has been part of Licking/Knox Goodwill for many years, but in 2012 the massive summer storm wreaked major havoc on the building, destroying the roof and causing water and debris damage making the efficiency apartments uninhabitable. Licking/Knox Goodwill stayed in close communication with our partners who assured us that living arrangements had been made for the tenants in these units. Licking/Knox Goodwill was committed to the repair and remodel of the building. One year and over \$200,000 in repairs later, we were pleased to see all three, freshly remodeled, units again occupied and being called home.

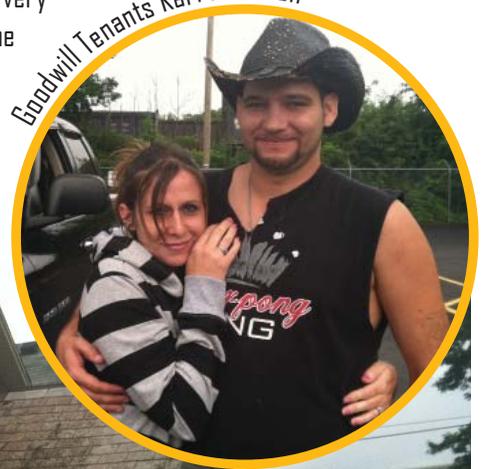

## **“We are proud of our home. It’s a very gratifying feeling...”**

Every individual or family that has a place to call home begins a new day full of hope and promise. When they have that place called home, it breaks down the barrier to gainful employment, which increases their sense of self worth and provides dignity. Recently, Goodwill tenants, Leon and Kari, moved into a Goodwill rental this June, said, “Moving from transitional housing into a permanent home has been a blessing. We are proud of our home. It’s a very gratifying feeling to say the least! We feel we are part of something huge! Going to

work now has new meaning. Goodwill has helped us to be stable on our feet, which is something we can say we have been waiting for.” Leon and Kari were referred by the Licking County Coalition for Housing.

If you know someone who needs housing assistance, please contact the Licking County Coalition for Housing at 740-345-1970.

# CARF Accreditation with Zero Recommendations

Licking/Knox Goodwill Industries, Inc. has been awarded a three-year CARF accreditation for its Employment Skills Training Services with zero recommendations. Only three percent of CARF surveys result in zero recommendations. This is the sixth consecutive Three-Year Accreditation that the international accrediting body has awarded to Licking/Knox Goodwill Industries, Inc. Timothy J. Young stated, "I am extremely proud of the employees and services that were evaluated during the accreditation process. Goodwill staff consistently strives to provide quality employment, training, and support services to individuals with disabilities and other barriers to employment."

**Zero Recommendations  
2013-2015**

This accreditation decision represents the highest level of accreditation that can be awarded to an organization and demonstrates the organization's substantial conformance to the CARF standards. An organization receiving a Three-Year Accreditation has put itself through a rigorous peer review

*"I am extremely proud of the employees and services that were evaluated..."*

process. It has demonstrated to a team of surveyors during an on-site visit its commitment to offering programs and services that are measurable, accountable, and of the highest quality. Licking/Knox Goodwill has shown dedication to the people they serve by maintaining standards in leadership, governance, quality, and availability of programs to our community, and being innovative in the services they provide.

Licking/Knox Goodwill is a non-profit organization with Administrative offices in Newark, Ohio; nine retail stores across Licking and Knox

counties; an online auction site, shopgoodwill.com; Career Services offices in Newark and Mt. Vernon, Ohio; janitorial contracts across central Ohio; a Used Car Lot; and security services.

CARF is an independent, nonprofit

accrediting body whose mission is to promote the quality, value, and optimal outcomes of services through a consultative accreditation process that centers on enhancing the lives of the persons served. Founded in 1966 as the Commission on Accreditation of Rehabilitation Facilities, and now known as CARF International, the accrediting body establishes consumer-focused standards to help organizations measure and improve the quality of their programs and services. For more information about the accreditation process, please visit the CARF website at [www.carf.org](http://www.carf.org).

# Fill the Box... for Hope

*Contributed by:  
Lana Poe, Retail Projects Coordinator*

Although Licking/Knox Goodwill Industries, Inc. has been around for over 50 years, there are many misconceptions as to what we are all about. As most people are familiar with Goodwill's retail locations, Licking/Knox Goodwill delivers several other services that bring "hope" to our local community. Our mission to provide training, employment, and support services to individuals with disabilities and other barriers to employment is sought out by its many employees and community affiliates daily. Through many divisions of Licking/Knox Goodwill Industries, funds are generated through various means to support this mission. One of the largest sources is the Retail division. Over the past year, the Retail division has increased their employees by 34 percent. All of this positive growth is made possible by one thing.... donations!

We currently have nine retail locations throughout Licking and Knox counties that are open to take donations seven days a week. As all donations are utilized to work toward the mission, no donation of value is refused. Whether its destination is to be

recycled or resold, no donation is too large or too small. When interviewing one of our generous donors, Megan Schedwin of Johnstown, she stated "I donate anything that I have no use for anymore. It's nice to be able to come in and donate for a tax write-off, and have an excuse to turn around and go shopping for new treasures all in the same trip!" After being asked, why she donates to Goodwill Megan responded, "It's nice to know that everything stays within the local community." Although there were a total of 79,477 generous donations made to Licking/Knox Goodwill in 2012, there is always a demand for more donated goods. As time changes and the economy fluctuates, the need for Goodwill within the community becomes even more essential. It is known that we bring "hope" to the community in forms of employment, education, training, affordable shopping, recycling, etc., however, we now bring another form of "Hope" to other locations.

The Licking/Knox Goodwill "Fill the Box for Hope" campaign is one of our newest endeavors to meet our donation needs. We strive to be the first choice for donor drop offs in Licking and Knox counties. With that, we are making every effort to make donating convenient for

each and every donor. The "Fill the Box for Hope" containers are being placed in various local business and public locations, giving donors an alternative place to leave their

communities to place these donation boxes. Any recommendations can be directed to Lisa Baker, Director of Communications at (740) 345-9861.

## "It's nice to know that everything stays within the local community."

donations. "Hope," the face of our donation boxes, is just one of the attractive images that represent the diverse benefactors of Licking/Knox Goodwill's mission. "Hope's" box is marked with graduating levels, each describing how donations are utilized for the funding of Goodwill programs. These boxes are compact, and the donations will be retrieved on a regular basis. To make this donation drive a success, we are currently seeking additional locations throughout our local

Although it seems as if only retail business relies on community donations, it is the entire Goodwill organization that benefits from it as well. Increasing the number of donations will help increase the number of local programs Licking/Knox Goodwill can facilitate. Donations of any size are accepted at all nine retail locations. So please remember, every donation makes a difference in the lives of the people we serve.

# Veterans' Services

*Contributed by:*

*Rae Johnson, Compliance Auditor*

The Licking/Knox Goodwill 2013-2015 Strategic Plan includes researching new programs and services for our community's veterans. Licking and Knox County armed forces are

returning home from all parts of the world. U.S. Afghanistan soldiers are scheduled to leave by the end of 2014. As of September 30, 2012, Ohio's population included 899,615 veterans, 92 percent of which are males. Returning armed forces are expected to swell those numbers and

overwhelm the medical, housing, and employment services so desperately needed by our armed service heroes.

The Strategic Plan includes exploring the feasibility of in-house mental health services to address their unique needs, including Post-

## Troy's Story

Troy Hickle, Goodwill Plaza Manager

Troy Hickle, Plaza Retail Store Manager, is quite a musician. Troy plays several instruments but his specialty is the bass guitar. At age 19, Troy dreamed of touring the world

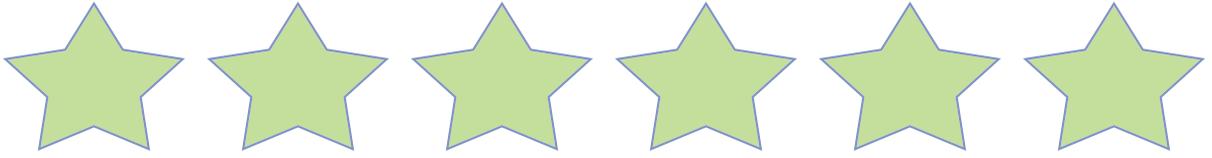

with the Air Force band, "Tops in Blue." However, an excellent score in mechanical aptitude altered that dream and ignited an interest in jet mechanics. Troy was assigned to Davis Manthan Air Force base in Tucson, Arizona. He excelled quickly and became a Phase Inspector with an E4 rank. His job description included supervising the complete tear down, inspection, and rebuild of the A-10 "Wart Hog."

Troy was very good at his job; he interviewed before a room of top brass and attained an early promotion to Level 5 Inspector. However, Troy wanted to come home. In 1990, because of his rank, Troy qualified for an early out. He

somewhat regrets his choice as the early out prevented him from taking advantage of a local, off-base program that would allow him to complete a four-year mechanical degree in six months.

After returning home, Troy was faced with a limited job market. His military skills did not transfer to the private sector and he finally accepted a job with Big Lots.

Even though being an Air Force jet mechanic was his favorite job, Troy believes his early out decision was ultimately for the good. When asked what military principles he took home with him, Troy answered, "Teamwork, pride, and patriotism."

Traumatic Stress Disorder (PTSD), a disease estimated to affect 13-20 percent of returning veterans.

Veterans are recognized as a social group having unique employment/service needs as described in Licking/Knox Goodwill's 2013 Cultural

Competency Plan, a component of the Employee Health & Morale section of the Strategic Plan.

Our strategic plan is designed to strengthen our mission. Among other goals, our plan includes providing additional veterans' services to our

community including those currently employed by Licking/Knox Goodwill.

Licking/Knox Goodwill is proud to employ 29 veterans. The articles below tell the stories of Troy Hickle, Goodwill Plaza Store Manager and Richard Gray, Director of Retail.

Director of Retail, Richard "Dick" Gray, has a different military story. Dick served two years with the United States Army 199th Light Infantry Brigade, with one year as a Staff Sergeant. Veteran's services were available for Vietnam veterans, but Dick and his comrades did not have access to the number of programs offered today. However, Dick reminded me most Vietnam veterans were limited to one tour of duty while today's armed forces may be sent overseas three or four times. Longer

tours equate to more medical, social, and financial problems.

Dick was supported by his family and friends when he came home in 1970 to Columbus, Ohio. Dick returned to school at The Ohio State University and to his previous job with the Kroger Company. When it came time to start seeking a new job, Dick experienced barriers due to the Vietnam veteran stigma. He then sought out the assistance of a

## Dick's Story

Dick Gray, Director of Retail

resume professional. At the time, the resume professional suggested he leave all military experience off of his resume due to the negative reception of veterans in the 1970s. After updating his resume, Dick was able to find employment in the retail industry.
